

## Changing the Zoom Level of Your AD Report Screen

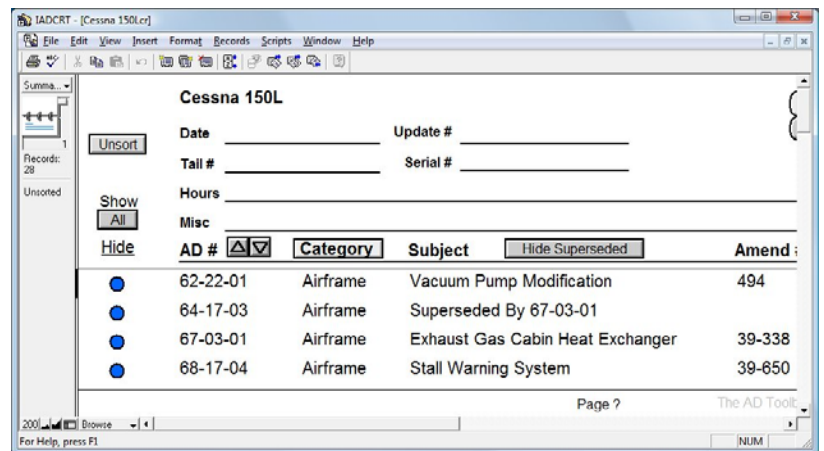

When viewing an AD Report on your screen, you can **zoom in and out** to see different levels of detail by using the **“Mountain” Buttons** in the lower left corner of your AD Report screen.

If you click the **Small “Mountain” Button**, your window will **zoom out** and show more lines and columns of information at one time.

Clicking the **Large “Mountain” Button**, will **zoom in**, making smaller text and items easier to read.

Toolbox Tips and Instructional Videos are available on the DVD disc in the **“Support Center & General Help”** drawer, and on our website (zookaviation.com) by clicking on the “Support” tab.

For further assistance, contact us any time by calling (803) 696-1041 or by email at help@zookaviation.com.
